

RE: AUCKLAND NORTHBOUND CARGO (MetroPort)

Pacifica are temporarily discharging Northbound cargo on *Moana Chief* at Tauranga for MetroPort to Auckland (Southdown rail).

This measure will help to mitigate the cargo back-log/congestion issues at Ports of Auckland container terminal , and also avoid *Moana Chief* being further delayed through Auckland by "loading only".

We anticipate containers arriving at Southdown rail 2-3 days following discharge at TRG.

Unless advised otherwise, MetroPort cost recovery charges will be applied as follows:

\$210 per 20'

\$260 per 40'

Moana Chief will return to normal discharge operations at Auckland asap .

This will largely depend on Ports of Auckland re-instating pro-forma berth windows to allow discharge & load operations without impacting *Moana Chief* ability to remain on fixed day weekly cycle.

We will issue customer update advisory accordingly.
