

# **New Zealand's Leading Coastal Ship Operator And Cargo Specialist**

# We've Got The Coast Covered

Shippers of containerised cargo can rely on Pacifica's regular coastal services, calling at all major New Zealand ports, plus on-demand calls at additional ports as required.

Pacifica works in partnership with other sea and land transport modes to provide an efficient and timely coastal network. Our domestic and international clients appreciate the seamless, cost-effective services we deliver.

We operate our own two vessels linking New Zealand's major ports on fixed day rotation. In addition, we work with other shipping lines to complement our vessels and give shippers added time and route flexibility.

Overall, our frequency and inter-modal links provide a practical 'Hub and Spoke' coastal network that is ideal for efficiently moving container cargo of all types and sizes.

Our goal is to continue to increase our coastal fleet and number of port calls. Growth will be in line with demand from our domestic and global partners for both domestic and import/export cargoes.

We will work with them to ensure our services meet their present and future needs.

Port of Otago

## Distribution and Warehousing

Pacifica operates a freight distribution and warehousing centre in Christchurch to support its nation-wide cargo services.

The facility includes a large coldstore with ample capacity for storage and handling of frozen as well as chilled goods.

The distribution centre is equipped to pack and unpack containers of all types and is licensed to store bonded freight.

Situated close to the Port of Lyttelton, the centre provides domestic and offshore customers with a strategic entry or exit point into and out of the South Island.

Port of Tauranga

## Domestic Coastal Schedules

Container Capacity	472 on hatches 226 in holds		
Total TEU*	698 containers (444 at 14 tonnes)		

(\*Twenty-foot equivalent units)

## A Long, Proud Service History

Port of Auckland

Pacifica Shipping has a long and proud history of service as New Zealand's most innovative and successful coastal cargo operator.

Starting with a roll on-roll off ship in 1985, today we operate scheduled and on-dmeand services between all the country's leading domestic and import/export ports.

These include Auckland, Tauranga, Lyttelton and Otago which between them handle over 90 per cent of all the country's international trade.

As a private company within the Skeggs Group of companies, Pacifica also operates land-based freight distribution and warehousing services in support of its coastal shipping network.

### Integral Part of Network

We are a vital part of New Zealand's transport network, delivering efficiency, environmental benefits and competitive pricing for shippers of all types of freight.

With our modern container vessels and global shipping connections, we are responsible for large volumes of containerised cargo on the coast.

Producers and manufacturers, as well as freight agencies and forwarders can rely on us for reliable and efficient long-haul freight services.
