### **Pacifica Rate Restoration Notice**

Dear customer,

Pacifica is committed to delivering the premium coastal service connecting key North and South Island ports. Our vessel the *MV Moana Chief* is the only New Zealand flagged vessel dedicated to coastal container shipping.

To ensure the continued sustainability of these services, it is necessary to introduce a rate restoration to recover increased operating and compliance costs, together with the investment required to maintain market leading standards. While increases are never welcome, ongoing cost impacts can no longer be absorbed.

The below rate adjustment is **effective from 17 November 2021** for all coastal cargo:

**NZD 265 per 20'**

**NZD 425 per 40'**

**Subject to gst**

The inherent value of coastal shipping is the ability to move cargo between the North & South Islands with the least environmental impact. These sustainability advantages deliver wider benefits vital to our economy and wellbeing, and allow our customers the best opportunity to move their freight with the lowest carbon emissions per freight tonne.

Thank you for your support and if you have any questions with regards to the above, please do not hesitate to contact your Pacifica representative.

Yours sincerely

Pacifica Shipping
