## Container Misdeclaration Notice

Dear Valued Customer,

Please be reminded that containers booked with Pacifica must be pre-advised to match the equipment type that is received for loading.

When units received at the port for loading differ from the booking & pre-advised information, it requires vessel operations to cease until the load plan can be adjusted and approved, ultimately delaying vessel operations. For example, a 20' Standard unit declared as a 20' High Cube.

These misdeclarations introduce costs to our business which we cannot absorb.

With effect from **Moana Chief V4354**, units booked & pre-advised with an incorrect ISO/Size type will be subject to a misdeclaration fee of NZD\$500.00 per unit.

Thank you for ongoing attention and compliance.

Please contact your Pacifica representative if any questions

Kind regards
